Thaw's seclusion today and night was absolute. Out of the cloud of dust which swirled in the wake of the black automobile bearing him and his liberators from Matteawan Sunday morning nothing he wanted five good automobile men tangible had come except a laconic letter from Thaw himself, assuring trip. I'm not saying how he did it, his aged mother in New York that he desired rest and would, in due time, join her at the Thaw country place, Elmhurst, at Cresson, Pa. In obedience to this plan Mrs. Thaw purposes to start for Cresson tomorrow morning.

Mother Is Happy. Happy, girlish almost, in her joy Mrs. Thaw exhibited the hastily scrawled note from the son whose son and Flood and the other boys escapades have cost the family a had no sooner gone away than it be millionaire and added that whatever came known around here that they Hanry did would meet with her ap- were going to get Harry Thaw out nounced intention of entering Penn- know anymore than all the auto-This in view of his ansylvania, gave basis to the belief boys around here know and they abouts early today. that Thaw was preparing to take knew it was coming off before it case before the courts of that happened. state and relying on the kink in American laws relative to the insane charged with no orime, to oppose extradition and duplicate in Pennsylvania, if possible, the course of John Armstrong Chaloner in Vir-

ginia. 'It was in anticipation of such a move that the New York authorities caused the warrant to be sworn out at Poughkeepsie. Conspiracy, according to the district attorney of Dutchess county, constitutes an extraditible offense. Close associates to the family indicated tonight that the ground work of a legal fight in Pennsylvania had already been laid. Dr. Britton D. Evans, the alienist who testified in Thaw s behalf at the murder trials, held a telephone conference with Mrs. Thaw this afternoon and it was said that he would accompany her to Pennsylvania tomorrow. There are to be conferences with counsel and meantime, it is understood, Thaw is to remain in

Many Rumors Current. Figuratively as well as literally Thaw left behind him only a cloud of Dutchess county dust. Rumors of his passage, description of black automobiles, tales of yachting boardings in Long Island sound, speckled

the day's news. The yacht Endymion of George Lauder, Jr., a distant relative of the Thaws by marriage, found mention in the crop of rumors. After having left Vineyard Haven, Mass., the

craft was reported as cruising somewhere in the south, possibly not far from South Norfolk, Conn. Inquiry at the New York Yacht

club disclosed that the Endymion was a slow boat and attaches there scanted the idea that Thaw would have gone aboard.

Is Natural Course. While there was nothing to support the theory that Thaw had taken to the seas, this seemed to those who have followed the case, to be the most natural course. Leaving Matteawan only two routes which did not double back into New York state lay open to him. One lay by land to Canada, thence southwest along the border of the great lakes and across Lake Erie to a northjutting nubbin of Pennsylvania. The other is the water rouse. Aboard ship in the south Thaw could bide his time in comparative safety and make his way to Philadelphia via

river. In view of the fact that entrance into Canada might mean a clash ively. with the imigration authorities there, the theory was advanced that Thaw's advisers would not have him

take any such risk. Dispatches from Ottawa, though quoting no official, said that if Thaw halted within the dominion he might be deported as an undesirable alien, although if he had a through ticket to Europe there would be no stopping him. The Philadelphia police said they would detain him if New York requested it. Connecticut took the view that he could be held there as an insane fugitive, but Massach setts officials were inclined to think that nothing short of a criminal charge would warrant his detention in that state

Search For Others.

Second only to the search for Thaw is that for Richard J. Butler, Roger Thompson, Michael O'Keefe, Eugene Duffy and Thomas Flood who did the "rough work." Who was the brains of the plot-whether himself or some astute lawyer—will have to be developed later. The description of Butler tallies closely with that HIS SECLUSION IS ABSOLUTE tion of Butler tallies closely with that same name, from New York City. William Gordon, proprietor of the hotel at Fishkill Landing where the five made their headquarters for two days prior to Thaw's escape indentified tonight a photograph of the former assemblyman as one of his late guests. The clerk of the hotel bore him out. In New York trace was found of a Butler of the same said of late to have operated taxicabs and formerly to have been a longshoreman. Former Assemblyman Butler is said to have been identified with the longshoremans' union. Mrs. Butler said tonight that her husband was absent from home from Friday afternoon until Sunday night last. She did not know where he had gone. Will Not Reveal Name.

H. Finken, who conducts transfer service, said that he not only knew Butler, but Thompson, O'Keefe Duffy and Flood all of whom he described as chauffeurs.

In the midst of her rejoicing over her son's escape, which she declared laughingly as "a neat piece of work," Mrs. Thaw reiterated throughout the day the statement that she knew nothing of his flight until told of it by reporters. HUERTA REJECTS PEACE SUGGESTIONS

Suggestions Made by U. S for Peace in Mexico Are Rejected by That Government

WILSON IS DISAPPOINTED

President Is Disappointed at Rejection But Will Publish American Communication Today Which Set Forth His Ideas

HUERTA DEMANDS RECOGNITION

MEXICO CITY, Aug. 18 .- The United States government has been given until midnight tonight by President Huerta to recognize Mexico it is officially stated.

The government is not specific in the public announcement as to what course will be pursued, but it is unof all relations between the two countries.

Two notes from Mexico have been forwarded to Washington. first was a reply to that delivered by Mr. Lind. This note included the demand for recognition of Mexto Washington and demanded that a reply to the previous note be made before midnight. This is regarded here as an ultimatum. One official in discussing this latter note said that Mexico had reached the Thomas H. Cann, Jr. point where she either must bow her head in humiliation before the Utaited States or adopt an attitude of defiance. The first contingency, he andded, was regarded as impossible.

WASHINGTON, Aug. 18-Administration officials were puzzled late tonight when they received the announcement through press despatches that Provisional President Huerta had declared an ultimatum demanding recognition of his government in Mexico by the United States. Secretary Tumulty at the white house read the Associated Press despatch from Mexico City received shortly before midnight stating the intention of the Huerta government and immediately communicated it to Secretary Bryan President Wilson had retired early and was not awakened.

Secretary Bryan said he had received merely cablegrams announce ing the rejection by the Huerta gov- one of the nurses for Thomas H. ernment of the American sugges- Swope, for whose death the phystions for a peaceful settlement. Washington Disappointed. The Huerta government's rejection of the suggestions made by the United States for a peaceful solution of the Mexican revolution reached Washington late today.

President Wilson, Secretary Bryan and Counsellor Bassett Moore of the state department discussed for nearly two hours the dispatches of John Lind, personal representative of President Wilson of Mexico describing the attitude of the Huerta officials. The president and his advisers were plainly disappointed, but announced that the American government would have nothing to say tonight. Instead the American communication appealing for a suspension of hostilities and a constitutional election, together with the emphatic statement that under no circumstances could the United States recognize the Huerta regime, because it was set up by irregular force instead of constitutional order will be made public tomorrow. Its publication tomorrow will constitute a reiteration before the world of President Wilson's ideas as to constitutional government in Latin-American. In all likelihood today's events mean the end of any dealings with the Huerta officials. No Warlike Sentiment.

The position taken by administration officials tonight was that the United States had done all that a friendly neighbor could do without actually using force. They pointed out that from the beginning of the trouble in Mexico, the United States has had but two alternativesfriendly mediation or armed intervention. No sentiment exists in this country to justify intervention or a war they said.

FREE SUGAR TEXT OF TARIFF DEBATE

Entire Day Is Taken Up in Senate by Discussion of Sugar Schedule of Tariff Bill

NO TIME IS FIXED FOR VOTE

Republicans Assail Proposal to Put Sugar On Free List in 1\$16 But No Time Has Been Fixed for Vote On Amendments

ASSERT REFINERS FAVOR FREE SUGAR

WASHINGTON, Aug. 18.-Free sugar was the text of the tariff debate in the senate today, Republican members assailing the Democratic proposal to put sugar on the free list in 1916, predicting the ruin of the Louisiana cane sugar industry and the "gobbling up by the trust of the domestic beet sugar industry of the country."

Senator Bristow, Smith of Michigan; Sterling, Smoot, Lodge and Cummins led in the attack on the sugar schedule. No time has been fixed for a vote on the Democratic rates or amendments proposed today by Senator Bristow which would provide for a gradual reduction of the tariff on refined sugar until the figure would reach \$1.26 a hundred pounds in 1919.

Democratic leaders asserted tonight that the Bristow amendments would be voted down and that there would be no Democratic votes to be cast against the majority except those of the Louisiana senators, Thornton and Ransdell.

In today's discussion Senator Bristow asserted that the American Sugar Refining company, which several years ago started out to acquire the beet sugar factories abandoned the plan, because they found it would be cheaper and easier to destroy this industry through free sugar than to control it by purchase

Supports Amendments.

Senator William Alden Smith, vigorously supporting the Bristow amendments declared: "I venture the assertion the

American Refining company, any of its owners has not purchased any beet sugar stock since the Democratic party came into power and will not buy any until you have of strangulation have persecuted the beet sugar men and tremendously reduced the price of their stock.

"If the industry is going to be ruined," asked Senator Willams, 'why should the stock be bought "Because the Democrats lease of

turned, "why picture all this dis-

pair, why not pass the bill, turn the Democrats out, re-establish your lines and go ahead " The Republican senators unanimously contended that the proposed rates would not cheapen sugar

to the consumer. Conflicts With Treaty. Senator Cummins said the removal of the sugar duty in 1916 would tend to abrogate the present reciprocity treaty with Cuba, because it would abolish the Cuban sugar preferential, the chief provision of the treaty. He raised the question, however, whether the proposed law or the treaty eventually would pre-

vail. Senator Lodge declared the pending bill made an immediate reduction in the sugar rate of approximately 20 cents a hundred pounds and that this reduction would not be in conflict with the treaty with Cuba

Senator Williams also insisted that there was no conflict between the treaty and the bill. The treaty, he said, applied to all imports, guaranteeing Cuba preferential, but preventing a change of tariff rates by law.

At the time of the accident the men were taking the machinery from the residence of Charles Black, where they had finished a piece of work Saturday night, to the home of Joseph Lindsay, where they were to hull clover today. Moore was acting as engineer and Turner was guiding. When the engine had gotten half way across there was a snapping of steel and at the same moment the entire west side of the bridge gave way the engine going down with good speed. So quickly was it all done that the men did not have time to jump. Moore had his shoulder and foot hurt and something struck him on the head cutting an ugly gash. Turner escaped with a few bruises and both men are congratulating themselves upon their narrow es-

The bridge was built about ten years ago and is a steel structure thirty feet long and costing about \$700. It is thought that one of the large rods snapped, which caused the structure to fall. It was the north span of the bride which went down, and the clover huller, caught on one of the beams and only turned over on its side. The engine, which is an unusually large model, fell on its side into the creek, which contains about two feet of water. The ponderous weight has caused the engine to sink deeply into the mud and it is going to be a difficult task to raise the mass of steel. It is also thought that the engine is badly damaged, perhaps beyond repair. The accident will occasion considerable delay in traffic as a temporary structure will be hard to build at that place.

A Grand Time Expected on the Illinois College Athletic Field This Evening at 7 O'clock.

A great amount of interest has been manifested in the festival to be given on the Illinois college athletic field this evening for the benefit of the Playground association Mr. Ruyter and his wife with their various assistants, have been working indefatigably for the success of the event and there is every reason to suppose that it will be an affair which is well worth seeing. It will be unique and will well exhibit the work which is being done in behalf of the children of the city and all who attend will see the good results of the work of the association. This kind of work is becoming more popular and is being regarded as one of the wisest movements in the world for the welfare of the young and rising generation. Millions are now invested in playgronds in the larger cities and the money is considered wisely expended.

PEKIN RAINBOWS LOSE SEASON'S BEST GAME

IN NIFTY PITCHING DUEL.

Honors Are About Even, Errors at Slight Advantage-Umpire's Rank Decision Gives Visitors and Fans Second Frame.

Pekin's Ranbow team of ball tossers engaged the Eagles in Sunday's pastime at Nichels park in the best article of baseball that has been uncorked here this season. It was a contest from the moment the first ball was heaved until John Meister was killed off at third in the ninth, when he attempted a delayed burg-The score was, Eagles, 3; Rainbows, 2.

Those Pekin players were a team of handy players, and but for the rankest kind of a decision by Umpire Abell in the second inning. there is little doubt that the festivities would have gone a long ways into the overtime. In that round T. Callahan slapped a ball down the left side of the infield whihe plowed through the dust five feet to the safe side of third off into left field. where it encountered a minature Mount Rainier and bounded fou! of the flag. Callahan had pulled up at second when the umpire ordered him back to the plate, calling the ball a foul. Half of the visiting infield swarmed about the umpire in protest, and the grandstand took up the kick and howled at and catcalled the umpire. He stood by his decision, bowever, and after Callahan had lost his temper and rid him-self of a little ugly talk, he resumed his batting attitude and was whiffed by Simms.

If the season's carded games are not complete a return game with the Rainbows would certainly draw a park capacity crowd. Simms, it is true, was a far way from being in anything near his best form. He was heavily handicapped by the injury he suffered to his knee in the game the previous Sunday. He limped considerably and the charleyharse had much to do in retarding his flinging, as he favored the infured member throughout the game. Manager-Captain Scroeder of the Pekins is not be overlooked when the hurlers are being considered. He delivers them from the portside, is not excitable and is as cool as a Chicago smoke inspector when enjoying corporation hospitality. He is not strong on the strikeout stuff, but he forces the ball into the air where the team behind him can get them.

Game in Detail. C. Callahan, the first man up, was an easy out, Denny to McCollister;
